Sir,

I have the honor to bring the following to your notice and to request your opinion

In this office No. 2111 dated 22 March 1887, Mr. Meiklejohn in forwarding to you a petition from Abdul Rhyman Khan of Yemmay Doddy Kan praying that as a Special case one rupee might be fixed as a permanent rate added" this Estate is planted below the Muddaik Channel & if the Estate is given a permanent assessment a clause should be entered that if channel water is ever taken "Nirkarti" in addition to the permanent rate will be charged, as otherwise the whole Garden might eventually if Coffee was found unprofitable be turned into rice land at a rupee an acre which would be an unfair rate.

that if any portion of the Estate is used for rice or Sugar Cane cultivation, water cess will be imposed on the extent of land so cultivated.

The papers noted in the margin are forwarded for information.

Proceedings of the Dewan of Mysore

Read.—

Letter No. 42 dated 27th April 1887, from the Deputy Commissioner of the Kadur District, submitting for orders copy of correspondence with Superintendent of Revenue Survey, in regard to Abdul Rahiman Khan's application that his Coffee land known as Yemmadoddi Kan in the Kadur Taluk may be assessed permanently at one Rupee per acre.

—"—

Order thereon No. 902-5/217 of Bangalore, 25 May 87.

The inferior Coffee lands of Yemmadoddi Kan in the Kadur Taluk may, as a special case, be assessed permanently at Rupee one per acre, as recommended by the Deputy Commissioner and the Superintendent of Revenue Survey, but subject to the condition of liability to water-rate, if Government water is utilized to any extent or in any shape. This condition should be expressly inserted in any Title Deed issued for the Coffee land in question.

I no 16 69 1

The Deputy Comr Kadur District

Respected Sir,

The humble petitioner Abdul Rahman Khan coffee planter of Ommy Doddi Kop Kadur Taluk most respectfully beg to inf your honor with the following few lines

Before soliciting my humble requ I think it better to bring to your kind notice, that all coffee Estates in Mysore Province has sufficient supply of jungly water to answer their wants of planters such as drinki pulping & irrigating nurseries, but as the planter + of Ommy Doddi has not fortunate to have a supply of jungly water, and the rain fall being very little, he was favoured with a "Mudwai flowing a "Soodee" water from Kadish channel which is govts property

Now I have to solicit that the rain fall

in Kadur Taluk as well as in Emmy Boodi being quite unsufficient for coffee cultivation Mr. F. D. Hepper the orignal planter of Emmy Boodi Kon, and also all the following planters used the water of said Mudwai to their young coffee plants during the drought season of the year, likewise the humble petitioner also enjoyed the same since the year 1872 up to date.

There being always a great scarcity of grass in Emmy Boodi Kon, and coffee trees yielding no good crop, upon my solicit, and kind recommendation of Deputy Comr., it has been sanctioned by the govt as a special case, that my inferior coffee land should be assesed permanently at one Rupee per acre, but subject to water rate if govt water is utilized. As I, like those of my former cultivaters was enjoying the right of watering my coffee plants when there was no rain immediately after planting, hearing the above liability of water rate, applied to the Amildar, on 11-4-88 presenting some refrences showing that I had a right to water my coffee plants, praying him

To bring again to the notice of Govt the matter of my using water to my coffee plants

from a long period of 36 years out of the Khayem Mudwai, and to recommend to exempt me from that liability of water rate if I use water to my Coffee plants as a past
Custom of 36 years.

2. Secondly, if Govt after perusing all refrences, on account of my bad luck, it is not so generous to grant me my most humble & needful request of using water to the Coffee plants without a additional Neersurdee as past 36 years at least, to fix 2 Rus an acre as a Special water rate to the esclent of 75 Acres of my Coffee land.

With all my request + I was told by the Amildar that the Survey Supt is willing to asses my inferior Coffee land equal to the best land of the Taluk.

Now it is easy to think that how hard it would be for me to pay an assessment as best land to my inferior Coffee land which being unprofitable is generously assesed as a special case at 1 Rupee an acre removing ½ a Rupee out of permanent assessment.

I do not think that my inferior Coffee land can give a good crop by

+ to my great misfortune

irrigation; it is not possible to water the whole Estate by the small quantity of ½ Cowdee water. Neither it is necessary to irrigate the Coffee land as often as other wet land, nor, I wish to take Govt. water more than what is granted to me as gratis to keep up my Coffee plants.

I believe that the liability of water rate, in my Case, may have been entered in Govts proceeding only at the time when Govt water be taken for other Crop, or if such liability be applied for Coffee land, either it shall give me a great damage that can not be sustained by any way or it shall oblige me to give up the land after a heavy expences & Credit. Govt made

I do not remember that any objection to take water for Coffee trees from my Mudwai at any time during past 3.6 years. When so, how strange it would be that if my inferior Coffee land, be assesed as wet land as proposed by Survey Supt. By so doing heavy the Govt shall put a fresh load upon humble Ryot who is favored with a reduction of ½ a Rupee an acre in his proper assesment.

I am sure that the generous Govt.

is not of that opinion. They would not impose any water rate for the water granted as gratis from a long period of 36 years, without their objection at any time only to protect their humble subject

There is reason to believe that some correspondance regarding the water rate may have been occured when G. H. Meikle Esq Deputy Com^r recommended that my coffee land may be assessed at one Rupee an acre, upon which the liability of water rate now in question has been stated in the Dewan's proceedings. However this liability of water rate shall be clearly known to your honor peruse the correspondance held on that time. At the same time I beg of your honor to see all the refrences produced by me with my petition to the Assistant on the 11-4-88, and also to just a look at the Deed of Sale executed between me & Mr H. Mascell of Bombay dated 19th April 1872, showing that I have purchased almost all the rights including water &c which he had to enjoy

presented with this

When it will be clearly came to know to your honor's kind consideration that that liability of water rate for my land was only at the time if coffee land be taken into other "Taree crops; that

my land is very inferior for coffee cultivation; and that owing to the scarcity of rain & there being no other supply of gungly water, a small supply of water from Madurk Channel has been granted as rates to preserve the young coffee trees since about 36 years without any objection; then your honor can consider that my solicit to escempt me from the liability water rate was a fare one.

Therefore I most humbly solicit to take all my prayers into your kind & generous Consideration and recommend both Survey Supt & govt to grant me that solicited protection of escempting me from the above liability of water rate if a "Sowdee" + water be taken as a "Tamoot" of 36 years preserve my coffee trees & drinking &c.

I Myself Confess & agree to pay a Peersurdee in addition to my permanent assessment the coffee land be taken into other ^Tree crop, though such is not a rule for other ^assessed permanent land holders.

By this act of kindness I shall ever pray for your honors long life & prosperity & shall live in such a bad & drought place by the present means of livelihood.

I beg to remain, respected Sir, your

Most humble Royet
